Nov. 23, 2002

Vince Graceffo served aboard my vessel, the FV Red Sky I, from April 15, 2002 until November 12, 2002. He served in the capacity of chief mate. His responsibilities included overseeing the other crew members, taking regular wheel watches, and assisting me with engineering duties.

Prior to joining my vessel, Vince had extensive experience on fishing and charter vessel and had acquired several mates and masters endorsement tickets. Needless to say, he was a valuable addition to my fishing operation. He was sorely missed when he moved on to bigger and better things.

Vince Graceffo will make an outstanding addition to any vessel he joins. His mates all respected him and his abilities are exceptional.

Respectfully,

Joe Graceffo, Owner
RED SKY FISHING CO. LTD.
