

m.y. New Horizon L

on board
at: Marigot Bay, St.Lucia
date: 17 January 1997

TO WHOM IT MAY CONCERN.

Vincenzo Graceffo has been employed on the Company's Motor Yacht "NEW HORIZON L" from 31 Dec 1996 - 17 January 1997, as Relief Engineer, during the Chief Engineer's absence on sick leave.

Vinnie has proved to be a very able and competent Engineer, and in the short time on board has become familiar with many of the ships systems.

He has also kept his share of sea-going Engine Room watches, being in sole control of the Engine Room during those periods.

Vinnie's easy going personality means he quickly blended in with the rest of the Crew, and he was always helpful and polite with Crew and Guests alike.

I am very grateful to Vinnie for his assistance over this short period and I am only too happy to recommend him to any future Owner or Captain.

M.J. Insull
Captain
